The replies are warm and short. If you speak differently, change the words: make it sound like you.

PART 1

When they ask “how much?”

SITUATION	READY-MADE REPLY (COPY AND ADAPT)
1. “Price?” (nothing else)	Hi! Thanks for getting in touch 😊 I make every piece to measure, so the price depends on the style and the fabric. What would you like: a corset, a set, a bodysuit? Is it for a special occasion?
2. “How much is the corset in the photo?”	Hi! That style made to measure is {price}. It includes taking your measurements and {N} fittings. When would you need it by?
3. “Send me all your prices”	Of course! Here's my price list with the styles and base prices. If you tell me what you like, I'll put together an exact quote with the fabric you choose.
4. They ask the price in a public comment	Hi! I've sent you a DM with all the details 📧
5. “How much is the set?”	The set (corset + knickers) is {price}. If you'd like to add knickers or a bra to another style, I'll work it out for you.
6. “Is that per piece?”	Yes, every piece is made to your measurements and the price is per garment. If you'd like a set, I'll quote the pieces together.
7. “Have you got anything cheaper?”	Yes: the {style} is {price}. It's simpler to make, with the same finish. Shall I send you some photos?
8. They ask the price and say nothing else	If you have any questions about the style, the fabric or the timeline, just ask. I'm happy to help you choose 😊
9. “Does the price include postage?”	The price is for the garment. Postage depends on where you are: send me your postcode and I'll tell you the cost.
10. “How much if I bring my own fabric?”	If you bring your own fabric, I'll take its cost off the quote. Send me a photo and the length so I can confirm it works for corsetry.

PART 2

When they say it's expensive

SITUATION	READY-MADE REPLY (COPY AND ADAPT)
11. "That's expensive"	I understand. It's a garment made to your measurements, with structure and hand finishing, that will last you for years. If you like, I can show you a simpler style that fits your budget better.
12. "I've seen it cheaper elsewhere"	That may be. What I offer is a garment made to your measurements, with fittings until it fits exactly as it should. If you're after a standard size, another option might suit you better, and that's absolutely fine.
13. "Can you give me a discount?"	The price is the same for all my clients, because it reflects the work in each piece. What I can do is add {extra} free of charge.
14. "Would you do it for {amount}?"	For that amount I can make you the {style}, which is simpler but looks gorgeous. Would you like to see photos?
15. "I'll think about it and let you know"	Of course! Take your time. Just so you know, I have room for {N} more commissions this week; if you want it for a particular date, let me know and I'll hold the spot.
16. "I didn't know it cost that much"	That's normal, most people don't know everything that goes into a corset: structure, boning, several fittings. If it helps, I can tell you what the price includes.
17. "Why so expensive?"	Because it isn't a standard-size garment: I take your measurements, make a toile, we try it on, and only then do I cut the final fabric. That's what makes it fit perfectly.
18. They compare it to a cheap imported piece	They're different garments: that one is a standard size and mine is made to measure, with hand finishing. Both can work; it depends on what you're looking for.
19. "Any offers on?"	No offers at the moment, but if you order the full set I'll add {extra} as a gift.
20. "I love it but I can't afford it"	I understand. You can book with the deposit and pay the balance on delivery. If you like, we can hold the date and make it when it suits you.

PART 3

Sizes and measurements

SITUATION	READY-MADE REPLY (COPY AND ADAPT)
21. "Do you do larger sizes?"	Yes! I make every piece to your measurements, so I don't work with sizes: it fits you, whatever your body.
22. "What sizes do you have?"	I don't work with fixed sizes: every piece is made to your measurements. I take them (in person, or I explain how to take them) and that's it.
23. "Can I take my own measurements?"	If we can't meet, I'll send you a step-by-step guide with drawings. It's important that someone else helps you and that you use a sewing tape measure.
24. "What if it doesn't fit?"	That's what the fitting is for: first I sew a toile, we try it on, and I adjust everything before cutting the final fabric. That way it fits as it should.
25. "I'm about to lose weight"	I'd suggest waiting until you've been stable for a few weeks before taking measurements, so the garment lasts. If it's for a date, we'll plan around it.
26. "Can I wear it while pregnant?"	A structured corset isn't meant to be worn during pregnancy. I can make you a different kind of garment, or we can wait until afterwards. Please check with your doctor too.
27. "Is it very tight?"	I make it to fit comfortably and close to the body, not to squeeze. We adjust it together at the fitting.
28. "Will it give me a waist?"	The corset shapes your silhouette while you're wearing it. It isn't a garment for reducing your measurements or for wearing all day.

PART 4

Deposit, payment and timelines

SITUATION	READY-MADE REPLY (COPY AND ADAPT)
29. "How do I pay?"	You book with a {deposit}% deposit and pay the rest on collection. I accept {payment methods}.
30. "Why do I need to pay a deposit?"	The deposit buys the materials for your garment and reserves your spot in my diary. Everything is in writing on the order form.
31. "How long does it take?"	From the deposit, between {X} and {Y} weeks, depending on the style and the fittings. If it's for a date, tell me which and I'll let you know if I can make it.
32. "I need it for Saturday"	I'll be honest with you: I can't make a made-to-measure corset properly in that time. I can offer you {alternative}, or we can make it for your next occasion.
33. "Can I pay in instalments?"	For now I work with a deposit and a balance. If it helps, we can split the balance into {N} payments before delivery.
34. "Is the deposit refundable?"	The deposit covers the materials bought for your garment, so it isn't refundable once I've started. If you cancel before I buy the materials, I'll refund it.
35. "I've paid the deposit"	Received, thank you! 🙏 You're in my diary. I'll message you to arrange your measurements.
36. "Do you post?"	Yes, I post nationwide. The cost depends on where you are; send me your postcode and I'll tell you the price.
37. "Can I collect?"	Yes, you can collect from {area}. We'll arrange a day and time when it's ready.
38. Balance reminder	Hi! Your garment is ready 💖 Just a reminder that the balance is {amount}. Does {day} work for you for delivery?

PART 5

About the style and the fabric

SITUATION	READY-MADE REPLY (COPY AND ADAPT)
39. "Can you make it in another colour?"	Yes! We choose the fabric and colour together. I'll send you options from what I have or can get hold of.
40. "Which fabric do you recommend?"	It depends on how you'll wear it: for a special occasion, satin or brocade; for everyday wear, a firm cotton. Tell me what you want it for and I'll recommend one.
41. "Can I wear it as outerwear?"	Yes! A corset looks gorgeous with trousers, a skirt or jeans. We make it with an outer fabric designed for that.
42. "Can you make one just like this photo?"	I can make you one inspired by that photo, to your measurements and with my finish. Send me the photo and I'll tell you what's possible.
43. "Does it have boning?"	Yes, it has boning for structure. Depending on the style, steel or plastic; I can explain the difference if you like.
44. "Can it be washed?"	Yes, carefully: by hand, in cold water, without wringing. I include a care card with the garment.
45. "Do you make lingerie too?"	Yes! I make bras, bralettes, bodysuits and knickers. Lots of clients put together the full set.
46. "Do you make bridal pieces?"	Yes, and I love it. For brides it's best to start early: with {X} weeks before the date we're comfortable.
47. "Do you make pieces for prom or a formal?"	Yes! We design it together around the dress or the style of the event. Tell me the date.
48. "Do you have anything in stock?"	I work to measure, so I don't keep stock: every piece is made for you. Sometimes I have a sample available; I'll let you know if there is one.

PART 6

Follow-up and closing

SITUATION	READY-MADE REPLY (COPY AND ADAPT)
49. The client stopped replying (after 2 days)	Hi! Have you had a chance to think about the {style}? If you have any questions, I'm happy to help 😊
50. Second follow-up (after a week)	Hi! Just letting you know my diary for {month} is filling up. If you'd like it for that date, let me know and I'll hold your spot.
51. Last time	Hi! I won't message again so as not to bother you 😊 Whenever you want to pick it up again, I'm here.
52. When she says yes	Lovely! 🎉 Here's the order form so you can see everything it includes, and the details for the deposit.
53. Confirming the fitting	Hi! Confirming your fitting on {day} at {time}. Please bring the underwear you'll wear with the garment.
54. Rescheduling	No problem at all! Which day works better for you this week or next?
55. The garment is ready	Your garment is ready! 💖 It's turned out beautifully. Shall we arrange delivery?
56. After delivery	Thank you for choosing me! I hope you love it. If you're up for it, I'd love to see a photo of you wearing it ❤️
57. Asking for a review	Hi! How did the {style} turn out? If you liked it, would you write a few words I can show other clients? It helps me so much.
58. Offering the set	Hi! I have some fabric left over from your corset and thought a pair of knickers would make the perfect set. Would you be interested?

PART 7

Tricky situations

SITUATION	READY-MADE REPLY (COPY AND ADAPT)
59. She wants to change the design after cutting	I understand. As the fabric is already cut, that change needs new material and hours. I'll send you the cost of the change and you decide.
60. She didn't like how it turned out	Thank you for telling me. Tell me what you're not happy with and we'll look at it together at a fitting.
61. She asks for it free (for the "exposure")	Thank you for thinking of me! I'm not doing collaborations at the moment, but if you like my work, I'll gladly send you my prices.
62. She asks and haggles in public	Hi! I'll message you privately so we can chat it through 😊
63. She doesn't turn up to the fitting	Hi! I was expecting you for your fitting today. Is everything OK? Let's arrange another day.
64. She wants it tighter than is healthy	I'll fit it so it's close to the body and comfortable. I can't make it tighter than that: it has to let you breathe and move.
65. She asks for the patterns	The patterns are part of my work and I don't share them, but I'd be delighted to make the garment for you!
66. Message outside working hours	Hi! I'll read this tomorrow morning and reply with all the details 😊
67. She's late paying the balance	Hi! Your garment is waiting for you 🦋 Shall we arrange the balance payment and delivery?
68. You're compared to another maker	Everyone works differently, and it's great that there are options. What I offer is {what makes you different}. If it suits you, I'm here.
69. An order too big for your capacity	Thank you for your trust! To do it properly, I can take on {N} pieces for that date. Shall we start with those?
70. She wants to cancel	I understand. As per the order form, since I've already bought the materials, the deposit covers them. If you like, we can put it towards another garment later on.
