How to sell sets

A client who buys a corset from you already trusts you. Offering her the set is the most natural thing: she already knows how you sew.

- 1 When taking the order, show a photo of the complete set, not just the single piece.
- 2 Price the set by adding up each piece in the Calculator (if you have it).
- 3 Offer the second piece in the fabric left over from the first: it matches perfectly.
- 4 For gifts, put the set in a pretty box or bag.
